HIPAA's Impact

“HIPAA (Health Insurance Portability and Accountability Act) impacts every healthcare organization from the largest health plan to the smallest physician practice.”

“HIPAA IT Handbook: Strategies to Protect Health Information” J. Bogen,
Opus Communications, 2001.

HIPAA Price Tag

- Cost to comply with HIPAA estimated at 6-8 times Y2K.
 - BCBS Association estimated \$43 billion
 - DHHS \$5.8 billion.

HIPAA Compliance Dates

- Transaction and Code sets: October 2002 (October 2003 for small plans).*
- Privacy: April 2003 or 2004 for small health plans.
- Security: April 2005.

* A one year delay conditionally granted.

HIPAA's Resource Problem

- Hospitals, government agencies and other covered entities must figure out what to do and when to do it.
- Have to commit significant resources to comply.
- Training is recognized as a key success factor.

HIPAA's Impact is Broad

HIPAA Awareness

- HIPAA is the #1 information management issue among health care organizations (HIMSS 2001 Survey).
- Reported that many health care organizations unprepared to meet implementation dates (AHA 2001 Survey, Gartner HIPAA survey, etc.).

HIPAA Mandates on Training

- Health care provider and health plan personnel will require training on the use of various identifiers, formats, code sets. (Federal Register, V.65, 8/17/00).
- Provide training to each member of the workforce by no later than the compliance date (Part 164.530(b)(2) HIPAA Privacy Rule).
- Compliance mandates documentation that training was provided for Privacy and Security requirements and for all those in contact with PHI.

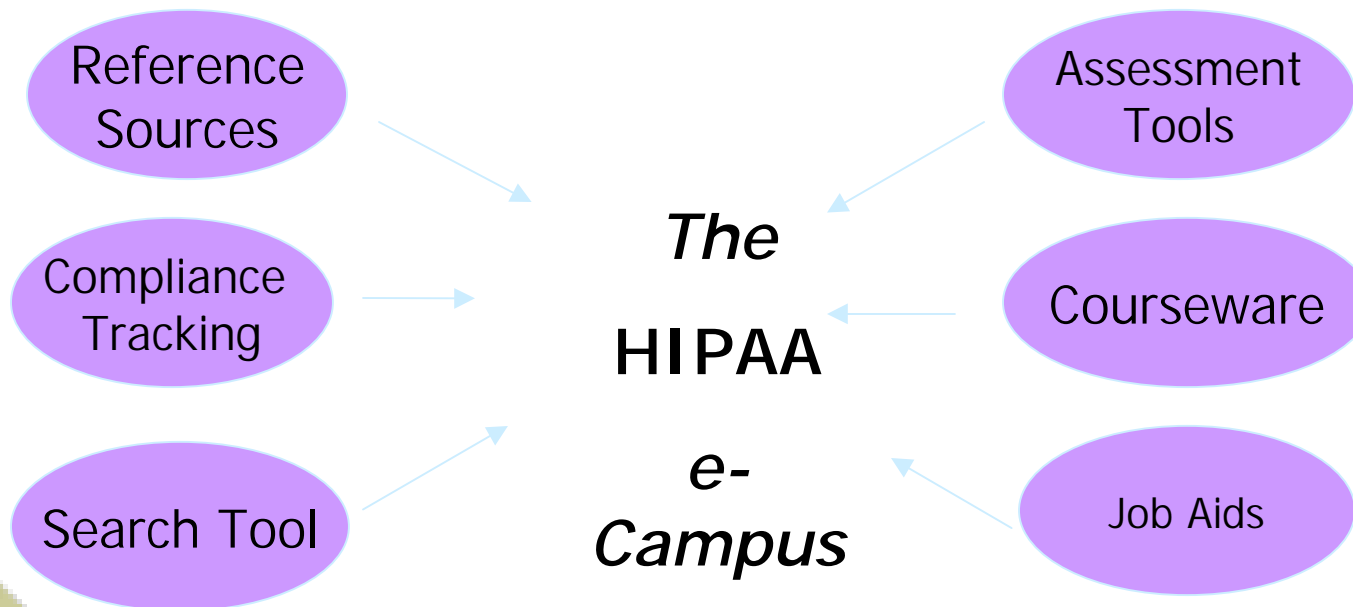

“E-Learning is taking off like wildfire around the globe. Organizations are finding ways to save 50% of the time invested in training, and cut costs by one-third to a half. “

Brandon Hall, BrandonHall.com

Our solution to training for HIPAA requirements is a blended solution of e-learning and “live” classrooms for specific job functions, departments or on as needed basis.

HIPAA Campus Online

A Web Based Training & Knowledge Transfer Tool

Why HealthCIO

- Not a company you have to educate!
- Deep Healthcare domain knowledge. Consultants average 20 years or more years of healthcare experience.
(RN, MPH, MBA, CHE, Ph.D.).
- Individuals with expertise and understanding of computer based training for healthcare.
- HealthCIO and its partners will manage course development, maintenance, and implementation.

HealthCIO Background

- Chair, New England HIPAA Educational Subgroup.
- Author of the HIPAA IT Handbook: Strategies to Protect Health Information.
- Senior consultant lead the elearning division for Harcourt-Brace medical division.
- A senior consultant was responsible for training medical staff on QA/Risk management and JCAHO.

HIPAA Courseware

- Custom Courseware Development
 - Develop custom instructional content.
 - New content.
 - Integrate “best-of-breed” published content into courseware.
 - Develop quizzes and assessment tools.
 - Develop role-based access and content.
 - Will Update content as needed.

Distance Learning Services

■ Services

- eLearning Web based campus (ASP or Intranet)
- Virtual Campus Development
- Courseware Development
- Multimedia Content Development
- Course/Campus Hosting
- Server Setup, Installation, and Management
- CD mastering

Blended Learning vs. Distance Learning

- Blended learning is best but Web-based learning is more cost-effective.
- Can train 5 or 50,000 on e-learning.
- Depending on customer requirements can offer various computer based training options as well as a blended learning solution.

Sample Courseware

- e-Learning Sample HIPAA Courseware
 - Module 1- HIPAA Overview
 - Module 2 - HIPAA Transactions and Code Sets
 - Module 3 - HIPAA Privacy
 - Module 4 - HIPAA for Business Associates
- Each module features quizzes and learner can print out a certificate if module successfully completed.
