- ◆ Board Certified physician executive.
- ◆ Board Certified former hospital administrator.
- ◆ Former health center executive.
- ◆ Training and elearning specialist.
- ◆ Case management experience.

What Needs Do We Meet?

HIPAA Overview

As healthcare providers, you are expected to do more with less. HIPAA represents a large commitment of resources. *Covered entities* must comply by October 2003 with HIPAA transactions and April 2003 for privacy. HIPAA presents many strategic opportunities for reengineering fundamental business processes and operations. *The biggest impact of HIPAA will be on the culture of your organization.*

The Y2K of HIPAA

HIPAA is not the Y2K. Training and awareness is the cornerstone of HIPAA compliance. What will you do when the consultants are through?

What is the impact of HIPAA on the operations of your organization?

How will you comply with HIPAA mandates and requirements?

Do you need help with HIPAA staff training?

What Services Do We Provide?

Training and Compliance

- ◆ On demand training and HIPAA self-assessment tools.
- ◆ HIPAA staff augmentation.
- ◆ HIPAA training via on-site, online, or ASP options.
- ◆ Develop HIPAA compliance plans.
- ◆ HIPAA project management.
- ◆ Development of effective HIPAA policies and procedures.

Benefits

1. Learn to perform HIPAA self- assessments.
2. Receive on-demand programs to meet budgets and needs.
3. Achieve HIPAA compliance at a reasonable cost.
